To Our Shareholders April 1, 2022

I am pleased to present the financial results for the first quarter of 2022 for Oregon Bancorp, Inc. (Company). During the quarter, we continued to see further relaxation of pandemic health and safety precautions and see the pandemic move to the rearview mirror. I am very pleased with our performance during that period of time and that we emerged stronger as a company.

The Company's balance sheet remains well positioned with good asset diversity and strong capital. Total assets decreased modestly by \$4.3 million, or 1.1%, from December 31, 2021. The largest quarterly balance sheet changes are attributable to a \$19.0 million decrease in loans held for sale and similar offsetting increases in cash and investments and commercial loans. First quarter net income was \$2.6 million which compares to \$7.3 million in the first quarter of 2021 and \$2.4 million in the first quarter of 2020. This results in a quarterly return on average assets of 2.5% and a quarterly return on average equity of 14.0%.

Our capital-to-assets remains very strong which has permitted the Board of Directors to distribute a \$2.00 per share special dividend on March 14, 2022 and a \$0.52 per share quarterly dividend on April 15, 2022.

Financial performance during the same quarter last year was fueled by exceptional mortgage production. The rate environment has shifted higher from a year ago which has resulted in less mortgage loan activity. Our expectations are that increasing rates should have a limited impact on the housing market given the ongoing demand for housing and the corresponding limited supply. Additionally, higher interest rates should also slow increasing home prices which would further assist potential home buyers.

We appreciate your continued support and look forward to serving you in the near future.
